CANADIAN JOURNAL OF EARTH SCIENCES, VOLUME 3

AUTHOR INDEX

Under each name are listed, in chronological order of publication, all articles in which an author has participated.

Arnold, K. C.
The glaciological maps of Meighen Island, N.W.T. K. C. Arnold, 903.
Aumento, F.
Thermal transformations of stilbite. F. Aumento, 351.
Avsiuk, G. A.
Experience in glaciological mapping of ice sheets and mountain glaciers. G. A. Avsiuk, O. N. Vinogradov, and V. I. Kravtsova, 841.
Baird, D. M.
Carboniferous rocks of the Conche – Groais Island Area, Newfoundland. D. M. Baird, 247.
Baragar, W. R. A.
Geochemistry of the Yellowknife volcanic rocks. W. R. A. Baragar, 9.
Barnett, D. M.
A re-examination and re-interpretation of tide gauge data for Churchill, Manitoba. D. M. Barnett, 77.
Barrett, D. L.
Lancaster Sound shipborne magnetometer survey. D. L. Barrett, 223.
Bayrock, L. A.
Bison occidentalis Lucas found at Taber, Alberta, Canada. C. Trylich and L. A. Bayrock, 987.
Best, M. G.
Structural geology of Precambrian rocks south of Bancroft, Ontario. M. G. Best, 441.
Blachut, T. J.
Some fundamental considerations on glacier mapping. T. J. Blachut and F. Müller, 747.
Blanchard, J. E.
Seismic studies on the eastern seaboard of Canada: the Appalachian system. I. G. N. Ewing, A. M. Dainty, J. E. Blanchard, and M. J. Keen, 89.
Boissonneau, A. N.
Glacial history of northeastern Ontario. I. The Cochrane–Hearst area. A. N. Boissonneau, 559.
Bottino, M. L.
Whole-rock age and initial $^{87}Sr/^{86}Sr$ of volcanics underlying fossiliferous Lower Cambrian in the Atlantic provinces of Canada. H. W. Fairbairn, M. L. Bottino, W. H. Pinson, Jr., and P. M. Hurley, 509.
Brandenberger, A. J.
Glacier surveying and mapping program of the Ohio State University. A. J. Brandenberger and C. Bull, 849.
Bugry, R.
A review of boron sedimentary geochemistry in relation to new analyses of some North American shales. D. M. Shaw and R. Bugry, 49.
Bull, G.
Glacier surveying and mapping program of the Ohio State University. A. J. Brandenberger and C. Bull, 849.
Burn, K. N.
Effect of iron on the determination of moisture content by the neutron method. K. N. Burn, 129.
Chagnon, J.-Y.
Synthesis of albite at 210–240 °C. J.-Y. Chagnon and V. A. Saull, 133.
Charlesworth, H. A. K.
Jointing in folded Cardium sandstones along the Bow River, Alberta. G. K. Muecke and H. A. K. Charlesworth, 579.
Chinnery, M. A.
Secondary faulting. I. Theoretical aspects. M. A. Chinnery, 163.
Secondary faulting. II. Geological aspects. M. A. Chinnery, 175.
Crickmay, C. H.
The external apical cavity of strophomenacean brachiopods. C. H. Crickmay, 499.
Dainty, A. M.
Seismic studies on the eastern seaboard of Canada: the Appalachian system. I. G. N. Ewing, A. M. Dainty, J. E. Blanchard, and M. J. Keen, 89.

David, P. P.
The Late-Wisconsin Prelate Ferry paleosol of Saskatchewan. P. P. David, 685.
Dineley, D. L.
The basal sedimentary rocks in Somerset Island, N.W.T. M. F. Tuke, D. L. Dineley, and B. R. Rust, 697.
Dormaar, J. F.
A biosequence of soils of the rough fescue prairie – poplar transition in southwestern Alberta. J. F. Dormaar and L. E. Lutwick, 457.
Dosso, H. W.
Analogue model measurements for electromagnetic variations near vertical faults and dykes. H. W. Dosso, 287.
Analogue model measurements for electromagnetic variations near a coastline. H. W. Dosso, 917.
Dreimanis, A.
The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 305.
Erratum: The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 1002.
Dyck, W.
Secular variations in the ^{14}C concentration of Douglas fir tree rings. W. Dyck, 1.
Erdosh, G.
Evaluation of infrared spectroscopy for quantitative analysis of rocks. G. Erdosh, 733.
Ewing, G. N.
Seismic studies on the eastern seaboard of Canada: the Appalachian system. I. G. N. Ewing, A. M. Dainty, J. E. Blanchard, and M. J. Keen, 89.
Ewing, K. J.
Cartographic representation and symbolization in glacier mapping. K. J. Ewing and M. G. Marcus, 761.
Fairbairn, H. W.
Whole-rock age and initial $^{87}Sr/^{86}Sr$ of volcanics underlying fossiliferous Lower Cambrian in the Atlantic provinces of Canada. H. W. Fairbairn, M. L. Bottino, W. H. Pinson, Jr., and P. M. Hurley, 509.
Field, W. O.
Mapping glacier termini in southern Alaska. W. O. Field, 819.
Frarey, M. J.
Discussion: Huronian stratigraphy of the McGregor Bay area, Ontario: Relevance to the paleogeography of the Lake Superior region, by Grant M. Young. M. J. Frarey, 997.
Grant, A. C.
A continuous seismic profile on the continental shelf off NE. Labrador. A. C. Grant, 725.
Haefeli, R.
Some notes on glacier mapping and ice movement. R. Haefeli, 863.
Hall, D. H.
The converted-wave method of seismic refraction interpretation for interfaces with severe dip and curvature. D. H. Hall, 111.
Harwood, T. A.
Infrared mapping of thermal anomalies in glaciers. A. O. Poulin and T. A. Harwood, 881.
Hattersley-Smith, G.
The Symposium on Glacier Mapping. G. Hattersley-Smith, 737.
Helk, J. V.
Glacier mapping in Greenland. J. V. Helk, 771.
Hills, L. V.
Capulisporites longiprocessum n. sp., a possible marker plant spore from the Belly River formation (Campanian) of Alberta, Canada. L. V. Hills and E. Jensen, 413.
Hubert, C.
Silurian stromatoporoids of the Matapedia–Temiscouata area, Quebec. C. W. Stearn and C. Hubert, 31.
Hurley, P. M.
Whole-rock age and initial $^{87}Sr/^{86}Sr$ of volcanics underlying fossiliferous Lower Cambrian in the Atlantic provinces of Canada. H. W. Fairbairn, M. L. Bottino, W. H. Pinson, Jr., and P. M. Hurley, 509.
Imre, J.
Experiments on the air-permeability of forest soils by radium-emanation method. J. Imre, 419.
Jensen, E.
Capulisporites longiprocessum n.sp., a possible marker plant spore from the Belly River formation (Campanian) of Alberta, Canada. L. V. Hills and E. Jensen, 413.
Kanasewich, E. R.
Deep crustal structure under the plains and Rocky Mountains. E. R. Kanasewich, 937.

Kasser, P.
Some problems of glacier mapping experienced with the 1:10 000 map of the Aletsch Glacier. P. Kasser and H. Roethlisberger, 799.
Keating, L. F.
Exploration in the Canadian Rockies and Foothills. L. F. Keating, 713.
Keen, C.
Crustal structure on the eastern seaboard of Canada: studies on the continental margin. C. Keen and B. D. Loncarevic, 65.
Keen, M. J.
Seismic studies on the eastern seaboard of Canada: the Appalachian system. I. G. N. Ewing, A. M. Dainty, J. E. Blanchard, and M. J. Keen, 89.
Kick, W.
Measuring and mapping of glacier variations. W. Kick, 775.
Kollar, F.
Measurement of the microseismic spectrum at Ottawa, Ontario. R. D. Russell and F. Kollar, 659.
Konecny, G.
Applications of photogrammetry to surveys of glaciers in Canada and Alaska. G. Konecny, 783.
Kornik, L. J.
Aeromagnetic study of the Churchill–Superior boundary in northern Manitoba. L. J. Kornik and A. S. MacLaren, 547.
Kravtsova, V. I.
Experience in glaciological mapping of ice sheets and mountain glaciers. G. A. Avsiuk, O. N. Vinogradov, and V. I. Kravtsova, 841.
Kumarapeli, P. S.
The St. Lawrence valley system: a North American equivalent of the East African rift valley system. P. S. Kumarapeli and V. A. Saull, 639.
Langleben, M. P.
On the factors affecting the rate of ablation of sea ice. M. P. Langleben, 431.
Larochelle, A.
Palaeomagnetism of the Abitibi dyke swarm. A. Larochelle, 671.
Sur le paléomagnétisme des terrains rouges Permo-Carbonifères de l'est du Canada. A. Larochelle, 730.
Law, L. K.
Additional heat flow determinations in the area of Mould Bay, Arctic Canada. W. S. B Paterson and L. K. Law, 237.
Leech, A. P.
Potassium–argon dates of basic intrusive rocks of the District of Mackenzie, N.W.T. A. P. Leech, 389.
Loncarevic, B. D.
Crustal structure on the eastern seaboard of Canada: studies on the continental margin. C. Keen and B. D. Loncarevic, 65.
Mid-Atlantic ridge near 45° north. I. The median valley. B. D. Loncarevic, C. S. Mason, and D. H. Matthews, 327.
Loveridge, W. D.
Rb/Sr age and geological setting of the Holyrood granite, southeast Newfoundland. W. D. McCartney, W. H. Poole, R. K. Wanless, H. Williams, and W. D. Loveridge, 947.
Lutwick, L. E.
A biosequence of soils of the rough fescue prairie – poplar transition in southwestern Alberta. J. F. Dormaar and L. E. Lutwick, 457.
McCartney, W. D.
Rb/Sr age and geological setting of the Holyrood granite, southeast Newfoundland. W. D. McCartney, W. H. Poole, R. K. Wanless, H. Williams, and W. D. Loveridge, 947.
McKenzie, G. D.
The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 305.
Erratum: The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 1002.
MacLaren, A. S.
Aeromagnetic study of the Churchill–Superior boundary in northern Manitoba. L. J. Kornik and A. S. MacLaren, 547.
Marcus, M. G.
Cartographic representation and symbolization in glacier mapping. K. J. Ewing and M. G. Marcus, 761.
Marlowe, J. I.
Mineralogy as an indicator of long-term current fluctuations in Baffin Bay. J. I. Marlowe, 191.

Mason, C. S.
Mid-Atlantic ridge near 45° north. I. The median valley. B. D. Loncarevic, C. S. Mason, and D. H. Matthews, 327.
Matthews, D. H.
Mid-Atlantic ridge near 45° north. I. The median valley. B. D. Loncarevic, C. S. Mason, and D. H. Matthews, 327.
Meier, M. F.
Some glaciological interpretations of remapping programs on South Cascade, Nisqually, and Klawatti glaciers, Washington. M. F. Meier, 811.
Middleton, G. V.
Experiments on density and turbidity currents. I. Motion of the head. G. V. Middleton, 523.
Experiments on density and turbidity currents. II. Uniform flow of density currents. G. V. Middleton, 627.
Muecke, G. K.
Jointing in folded Cardium sandstones along the Bow River, Alberta. G. K. Muecke and H. A. K. Charlesworth, 579.
Müller, F.
Some fundamental considerations on glacier mapping. T. J. Blachut and F. Müller, 747.
Østrem, G.
Surface coloring of glaciers for air photography. G. Østrem, 877.
Paterson, W. S. B.
Additional heat flow determinations in the area of Mould Bay, Arctic Canada. W. S. B. Paterson and L. K. Law, 237.
Test of contour accuracy on a photogrammetric map of Athabasca Glacier. W. S. B. Paterson, 909.
Petrie, G.
Photogrammetric measurements of the ice wastage and morphological changes near the Casement Glacier, Alaska. G. Petrie and R. J. Price, 827.
Pinson, W. H.
Whole-rock age and initial $^{87}Sr/^{86}Sr$ of volcanics underlying fossiliferous Lower Cambrian in the Atlantic provinces of Canada. H. W. Fairbairn, M. L. Bottino, W. H. Pinson, Jr., and P. M. Hurley, 509.
Poole, W. H.
Rb/Sr age and geological setting of the Holyrood granite, southeast Newfoundland. W. D. McCartney, W. H. Poole, R. K. Wanless, H. Williams, and W. D. Loveridge, 947.
Poulin, A. O.
Infrared mapping of thermal anomalies in glaciers. A. O. Poulin and T. A. Harwood, 881.
Price, R. J.
Photogrammetric measurements of the ice wastage and morphological changes near the Casement Glacier, Alaska. G. Petrie and R. J. Price, 827.
Purdy, J.
A geochronometric study of the Superior province near Red Lake, northwestern Ontario. J. Purdy and D. York, 277.
Robin, G. de Q.
Mapping the Antarctic ice sheet by satellite altimetry. G. de Q. Robin, 893.
Roethlisberger, H.
Some problems of glacier mapping experienced with the 1:10 000 map of the Aletsch Glacier. P. Kasser and H. Roethlisberger, 799.
Ross, J. V.
A note on histogram analysis of isotopic age data. J. V. Ross, 259.
Roy, J. L.
Désaimantation thermique et analyse statistique des directions de sédiments carbonifères et permiens de l'est du Canada, J. L. Roy, 139.
Russell, L. S.
A paleocene conglomerate in west central Alberta. L. S. Russell, 127.
Russell, R. D.
Measurement of the microseismic spectrum at Ottawa, Ontario. R. D. Russell and F. Kollar, 659.
Rust, B. R.
The basal sedimentary rocks in Somerset Island, N.W.T. M. F. Tuke, D. L. Dineley, and B. R. Rust, 697.
Saull, V. A.
Synthesis of albite at 210–240 °C. J.-Y. Chagnon and V. A. Saull, 133.
The St. Lawrence valley system: a North American equivalent of the East African rift valley system. P. S. Kumarapeli and V. A. Saull, 639.
Schiller, E. A.
Metamorphism of the Meguma group of Nova Scotia. F. C. Taylor and E. A. Schiller, 959.

Schytt, V.
The purpose of glacier mapping. V. Schytt, 743.
Shaw, D. M.
A review of boron sedimentary geochemistry in relation to new analyses of some North American shales. D. M. Shaw and R. Bugry, 49.
Somanchi, S.
Subsolidus phase relations in the system Ag–Sb. S. Somanchi, 211.
Stauffer, M. R.
An empirical–statistical study of three-dimensional fabric diagrams as used in structural analysis. M. R. Stauffer, 473.
Stearn, C. W.
Silurian stromatoporoids of the Matapedia–Temiscouata area, Quebec. C. W. Stearn and C. Hubert, 31.
Stevens, A. E.
S-Wave focal mechanism studies of the Hindu Kush earthquake of July 6, 1962. A. E. Stevens, 367.
Taylor, F. C.
Metamorphism of the Meguma group of Nova Scotia. F. C. Taylor and E. A. Schiller, 959.
Terasmae, J.
The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 305.
Erratum: The Port Talbot interstade of the Wisconsin glaciation. A. Dreimanis, J. Terasmae, and G. D. McKenzie, 1002.
Trylich, C.
Bison occidentalis Lucas found at Taber, Alberta, Canada. C. Trylich and L. A. Bayrock, 987.
Tuke, M. F.
The basal sedimentary rocks in Somerset Island, N.W.T. M. F. Tuke, D. L. Dineley, and B. R. Rust, 697.
Utsu, T.
Variations in spectra of *P* waves recorded at Canadian Arctic seismograph stations. T. Utsu, 597.
Vinogradov, O. N.
Experience in glaciological mapping of ice sheets and mountain glaciers. G. A. Avsiuk, O. N. Vinogradov, and V. I. Kravtsova, 841.
Waite, A. H., Jr.
International experiments in glacier sounding, 1963 and 1964. A. H. Waite, Jr., 887.
Wanless, R. K.
Rb/Sr age and geological setting of the Holyrood granite, southeast Newfoundland. W. D. McCartney, W. H. Poole, R. K. Wanless, H. Williams, and W. D. Loveridge, 947.
Wardlaw, N. C.
Middle Devonian salt formations and their bromide content, Elk Point area, Alberta. N. C. Wardlaw and D. W. Watson, 263.
Watson, D. W.
Middle Devonian salt formations and their bromide content, Elk Point area, Alberta. N. C. Wardlaw and D. W. Watson, 263.
Westermann, G. E. G.
The holotype (plastotype) of ?*Titanites occidentalis* Frebold from the Kootenay sandstone (Upper Jurassic) of southern British Columbia. G. E. G. Westermann, 623.
New occurrences of *Monitis* from Canada (Triassic Pelecypoda). G. E. G. Westermann, 975.
Williams, H.
Rb/Sr age and geological setting of the Holyrood granite, southeast Newfoundland. W. D. McCartney, W. H. Poole, R. K. Wanless, H. Williams, and W. D. Loveridge, 947.
York, D.
A geochronometric study of the Superior province near Red Lake northwestern Ontario. J. Purdy and D. York, 277.
Young, G. M.
Huronian stratigraphy of the McGregor Bay area, Ontario: Relevance to the paleogeography of the Lake Superior region. G. M. Young, 203.
Huronian stratigraphy of the McGregor Bay area, Ontario: Relevance to the paleogeography of the Lake Superior region. A reply to discussion by M. J. Frarey. G. M. Young, 999.
